Unit 8, 257 Balcatta Road Balcatta WA 6021, Ph: (08) 9440 4855

WESTERN AUSTRALIAN  
OWNED

## FEATURES

Non Polluting, Corrosion resistant, Stainless steel construction inside and out.

The smooth safety hook will prevent the rope from abating.

The built-in jam free stainless steel check valve can effectively prevent backflow of water in the pipe from affecting pump performance when the motor is not operating.

Precision stainless steel intermediate chamber can help maintain optimum performance even when water pressure is greatest.

The high-performance, high efficiency stainless steel impellers is one of the special features of this product.

It is incomparably superior to ordinary plastic or brass impellers in terms of abrasion resistance and service life.

The stainless steel strainer can prevent the entry of sand or other extraneous material.
